

Central Coast Amateur Radio Group
Training Net Procedure (rev 02/07/23 K6ZAP)

(5min before net)

The W6WJ Central Coast Amateur Radio Group Training Net will start in approximately 5 minutes at 1900 hrs.

(1900 hrs start net) **QST QST QST**

This is W6WJ The Central Coast Amateur Radio Group, This is (call sign) (name) (location), net control station for the Central Coast Amateur Radio Group in Grover Beach.

This is a training exercise. This net is held every Thursday at 1900 hours local time on the Lopez Hill Repeater with a frequency of 146.940 MHz (negative offset) and a PL Tone of 127.3

This is a directed net. Please do not transmit unless directed to do so by the net control station.

(Pause your transmission)

The purpose of the CCARG net is to perform a weekly test of emergency communication equipment, to exchange information relating to emergency readiness and to check the well-being of our members.

Is there any emergency or priority traffic for the net?

(attempt to handle traffic immediately. Turn frequency over to calling station to describe emergency and relay to appropriate authorities.)

Are there any contacts, announcements or QSTs to be listed?

(list QSTs and contacts) (have stations give QSTs in order of listing)

At this time, we will begin the roll call.

(call the roll, say.... call sign and name of member)

Are there any late or missed members? Come now with Call Sign and Name please.

Visitors who are listening to this net are invited to check-in at this time. Come now with your Call Sign, Name, and Location.

All members are encouraged to attend our monthly meeting that is held on the 3rd Wednesday at 1900 hours local time at 931 Rose Court suite 100 in Grover Beach and to participate in Ham radio activities in the community.

Is there any further business for the net?

This concludes this portion of the net. We will now have a rag chew / round table session to talk about Ham Radio related items, CCARG support, and other topics you would like. (begin the rag chew session)

We had (#'s) members and (#'s) visitors for this session of the CCARG net tonight. We invite you to come back next Thursday.

This is (call Sign) closing the W6WJ Net at (time). 73's, and the frequency returned to normal use.

=====

Notes:

(if you update this script, please get approval from our President and Secretary before using it.... Update the *rev date and call sign*)

(at the end of the month you are the Net Control Station, please send our President any corrections to the membership roster for validation)
